

“ Digitalisation is creating the best version possible of rail mobility – safe, silent and sustainable ”

BEN MÖBIUS
Managing Director of the German Railway Industry Association (VDB)

06

82 **INTERVIEW SPOTLIGHT**
With Florian Auer
Director of Technology and Innovation, Plasser & Theurer

101 **WEBINAR HIGHLIGHTS**
Advanced and uncompromising railway safety: An innovative tool suite
In association with Swiss Federal Railways (SBB)

102 **SAFETY**
Infrabel's world-first level crossing crash test
Frédéric Petit, Spokesperson, Infrabel

106 **REGULATION & LEGISLATION**
Delivering international regulations to ensure efficient rail transportation
Aleksandr Kuzmenko, Head of the Legal Department, Intergovernmental Organisation for International Carriage by Rail (OTIF)

110 **EVENTS DIARY**
A round-up of forthcoming industry events

112 **INTERVIEW SPOTLIGHT**
With Roger Grossniklaus
Sales & Marketing Director, MATISA

01 **WELCOME**
Making the most of what digitalisation has to offer
Craig Waters, Editor, *Global Railway Review*

04 **NEWS**
A round-up of the latest industry news

06 **LEADERS' SERIES**
Utilising innovations to revolutionise rail
Ben Möbius, Managing Director, German Railway Industry Association (VDB)

08 **IN FOCUS – BRIGHTLINE**
Redefining passenger train travel in America
Ben Porritt, Senior Vice President of Corporate Affairs, Brightline

14 **INTERVIEW SPOTLIGHT**
With Lucy Prior MBE
Membership Development and International Trade Director, The Rail Alliance

32 **PRODUCT SHOWCASE**
The Smart Rail Track by Vossloh
Vossloh

34 **THE PASSENGER**
Using customer experience insights to enhance travel quality
Mark van Hagen, Principal Consultant Customer Experience and Joost van der Made, Head of Concept Development, Netherlands Railways (NS)

56 **INFRASTRUCTURE**
Heavy-haul in China: Investigating durable elasticity for superstructure
Getzner colleagues Dong Huiding, Ferdinand Pospischil and Harald Loy

77 **PRODUCT SHOWCASE**
A new answer for unforeseen situations: The Dellner Mobile Service Container
Dellner Couplers AB

78 **INFRASTRUCTURE**
The new voestalpine Railway Systems: Redefining top performance
An interview with voestalpine Railway Systems' Dieter Fritz, Frederick Kübler and Jochen Holzfeind

Contents

In-Depth Focus

THE FUTURE OF RAIL

16 Establishing rail as the backbone of future mobility

Philippe Citroën, Director General, UNIFE

21 The future of rail in Hong Kong

Jeremy Long, Chief Executive Officer – European Business, MTR Corporation

25 Renfe's next decade: Preparing for the challenges ahead

Renfe

28 Making hyperloop a reality: Virgin Hyperloop One

Josh Giegel, co-Founder & CTO, Virgin Hyperloop One

Event Previews

InnoTrans 2018

40 InnoTrans 2018: Experience the future of mobility live

Find out about the technology, speakers and events that make a trip to the Messe Berlin a must

52 Company Profiles
Meet some of the industry players that will be showcasing their products and solutions at InnoTrans 2018

Digital Rail Revolution 2018

Find out about this year's conference programme and speakers

AusRAIL 2018

95 AusRAIL 2018
An exciting time for rail in Australia

In-Depth Focus

INFRASTRUCTURE MAINTENANCE

62 Clearing the mist that is obscuring point clouds

Rob Buitendijk, Manager of Asset Information, ProRail

67 Maintaining Italy's rail infrastructure using various techniques

Umberto Lebruto, Head of Production, Rete Ferroviaria Italiana (RFI)

70 Optimising electrification for maintenance

Rob Daffern, Director & Principal Engineer, Furrer+Frey

74 Developing a more efficient rail maintenance strategy for Portugal

Andreia Grossinho, Head of Asset Technical Management Unit, Infraestruturas de Portugal, S.A. (IP)

In-Depth Focus

OPTIMISING RELIABILITY

88 Electrifying Denmark's railway will result in improved reliability

Klaus Bergman, Electrification Programme Project Director, Banedanmark

92 i-TRACE: Creating a standardised approach to tracking materials by rail across Australia

Danny Broad, Chief Executive Officer, Australasian Railway Association (ARA)

96 The 'digital wagon': Technology trends for the rail freight sector

Unai Alvarado and Jaizki Mendizabal, Ceit-IK4 Technology Center colleagues

COVER SPONSOR:

la passion du rail

Created in 1964, MATISA is the Swiss track maintenance machines manufacturer. They have developed a wide range of machines easing the mechanised track maintenance work worldwide. Tamping, regulating, track renewal, ballast cleaning, but also track measuring, have been their areas of expertise for decades.

Based in Crissier, near Lake Geneva, MATISA delivers products to clients requiring the technology with renowned Swiss quality. At ease on high-speed lines, heavy mining tracks, as well as smaller metro lines, and alpine networks requiring tight curves and steep gradients, MATISA has solutions for all requirements.
