

## TABLE OF CONTENTS

<i>Chapter</i>	<i>Page</i>
FOREWORD.....	ix-xi
I. INTRODUCTION.....	1
II. THE EARLY EVOLUTION OF RAILWAYS.....	5
III. THE EVOLUTION OF TRACK COMPONENTS.....	25
III.1. Ties.....	25
III.2. Rail-Tie Fasteners for Wood Cross-Ties.....	51
III.3. Rail-Tie Fasteners for Concrete-Tie Systems.....	67
III.4. Rails.....	73
III.5. Rail Joints.....	74
III.6. Turnouts.....	82
IV. RESPONSE OF TRACK TO WHEEL LOADS.....	84
IV.1. Introduction.....	84
IV.2. Analyses of Longitudinal-Tie Tracks.....	85
IV.3. Analyses of Cross-Tie Tracks.....	86
IV.4. Validity of Used Analyses.....	111
IV.5. Shortcomings of the Standard Analysis.....	112
IV.5.1. <i>Effect of Lift-Off of Rails or of Rail-Tie Structure</i> .....	112
IV.5.2. <i>Effect of Base Stiffening on Track Stresses</i> .....	114
IV.5.3. <i>Effect on Track Analyses of Ballast Resistance Against Tie Rotation</i> .....	115
IV.5.4. <i>Effect of Continuity of Ballast-Subgrade Base on Track Analyses</i> .....	117
IV.6. Rails-in-Track Subjected to Axial Forces.....	118
IV.7. Contact Pressures and Their Effect on Rail Defects and Wear.....	124
IV.8. Summary of Rail Stresses and Their Effects.....	128
IV.9. Stress Concentrations.....	129
IV.10. Fatigue of Rail Steel and Its Effect on Rail Fractures.....	131
V. DETERMINATION OF THE RAIL SUPPORT MODULUS $k$ FOR THE STANDARD TRACK ANALYSIS.....	135
V.1. Introduction.....	135
V.2. The Kerr Method for Determination of $k$ Using Any Car or Locomotive.....	137
V.3. Other Proposed Methods for Determination of $k$ .....	141
V.4. Problems to Be Considered When Determining $k$ .....	148

<b>VI. THE TRACK SUBSTRUCTURE</b> .....	153
<b>VI.1. Subgrade; Engineering Properties and Problems</b> .....	153
VI.1.1. <i>Grain-Size Distribution Curves</i> .....	153
VI.1.2. <i>Soil Porosity and Water Content</i> .....	157
VI.1.3. <i>Consistency and Sensitivity of Clay-Type Soils</i> .....	158
VI.1.4. <i>Permeability of Soils, Seepage, and Drainage</i> .....	162
VI.1.5. <i>Filtering Properties of Soils and Their Use</i> .....	164
VI.1.6. <i>Capillary Phenomenon and Its Effect on Subgrade</i> .....	168
VI.1.7. <i>Effect of Frost on Subgrade, Frost Heave</i> .....	171
VI.1.8. <i>Soil Pressure, Pore Water Pressure</i> .....	175
VI.1.9. <i>Subgrade Strength; Shearing Failures</i> .....	179
<b>VI.2. Ballast</b> .....	184
VI.2.1. <i>Introduction</i> .....	184
VI.2.2. <i>Purpose of Ballast</i> .....	184
VI.2.3. <i>Desired Properties of Ballast Layer</i> .....	185
VI.2.4. <i>Qualification Tests for Ballast Materials</i> .....	186
VI.2.5. <i>Effect of Ballast Gradation</i> .....	188
VI.2.6. <i>Rock Types and Their Effect on Ballast Performance</i> .....	190
VI.2.7. <i>Ballast Shoulders</i> .....	191
<b>VI.3. Subballast and the Subgrade-Ballast Interface; Geotextile, Geogrids</b> .....	194
VI.3.1. <i>The Subballast</i> .....	194
VI.3.2. <i>The Subgrade-Ballast Interface</i> .....	196
<b>VI.4. Track Drainage</b> .....	201
<b>VI.5. Methods of Track Maintenance</b> .....	205
<b>VII. THE AXIAL FORCES IN RAILS, TRACK BUCKLING, AND PULL-APARTS</b> .....	209
<b>VII.1. Introduction</b> .....	209
<b>VII.2. Generation of Axial Forces in Rails</b> .....	210
<b>VII.2.1. <i>Axial Rail Forces and Displacements in a Straight Rail                     Caused by a Uniform Temperature Change <math>\Delta T_0</math></i></b> .....	210
<b>VII.2.2. <i>Axial Rail Forces in a Straight CWR Track Caused by <math>\Delta T_0</math></i></b> .....	212
<b>VII.2.3. <i>Axial Rail Forces in a Straight Jointed Track Caused by <math>\Delta T_0</math></i></b> .....	217
<b>VII.2.4. <i>Axial Forces in a CWR Track Caused by a Pull-Apart</i></b> .....	218
<b>VII.2.5. <i>Axial Forces in a Turnout Caused by <math>\Delta T_0</math></i></b> .....	220
<b>VII.2.6. <i>Axial Forces in Curved Tracks Caused by <math>\Delta T_0</math></i></b> .....	221
<b>VII.3. Track Buckling Tests and the Essential Findings</b> .....	223
<b>VII.4. Static Analyses of Track Buckling; Straight Tracks</b> .....	227
<b>VII.5. Static Analyses of Track Buckling; Curved Tracks</b> .....	235
<b>VII.6. Parameters Needed for a Track Under Consideration</b> .....	237
<b>VII.7. Numerical Examples</b> .....	239
<b>VII.8. Rail Installation Temperatures and Maintenance in North America</b> .....	243
<b>VII.9. Measures for Preventing Track Buckling</b> .....	244
<b>VII.10. Additional Remarks to Track Buckling</b> .....	246

<b>VIII. DYNAMICS OF TRACK-TRAIN INTERACTIONS AND RELATED PROBLEMS .....</b>	<b>250</b>
<b>VIII.1. Introduction.....</b>	<b>250</b>
<b>VIII.2. Definition of the Terms Velocity (Speed) and Acceleration.....</b>	<b>251</b>
<b>VIII.3. Newton's Laws of Mechanics.....</b>	<b>252</b>
<b>VIII.4. The Use of Newton's Laws for the Analysis of Simple Railway Engineering Problems.....</b>	<b>253</b>
<b>VIII.5. Utilization of the Presented Examples for the Explanation of Dynamic Railroad Situations .....</b>	<b>264</b>
<b>VIII.6. Dynamic Problems at Track Transitions.....</b>	<b>268</b>
<b>VIII.7. Remedies at Track Transitions.....</b>	<b>272</b>
<b>VIII.8. Elimination of Track Transition Sections by Using Matched Pads .....</b>	<b>275</b>
<b>VIII.9. Car Moving Over a Curved Track.....</b>	<b>282</b>
<b>VIII.10. Conversion of Degree of Curvature to Radius, Numerical Example.....</b>	<b>284</b>
<b>VIII.11. The Critical Speed of a Moving Car .....</b>	<b>286</b>
<b>IX. DESIGN ANALYSES OF CROSS-TIE TRACKS .....</b>	<b>289</b>
<b>IX.1. Introduction.....</b>	<b>289</b>
<b>IX.2. Design Data.....</b>	<b>290</b>
<b>IX.2.1. Allowable Bending Stress for Rail.....</b>	<b>290</b>
<b>IX.2.2. Allowable Bearing Stress for Determination of Tie-Plate Size .....</b>	<b>292</b>
<b>IX.2.3. Allowable Bearing Stresses for Tie on Ballast.....</b>	<b>292</b>
<b>IX.2.4. Allowable Bearing Stresses for Subgrade .....</b>	<b>293</b>
<b>IX.2.5. Comments to the Determination of Allowable Stresses .....</b>	<b>293</b>
<b>IX.2.6. Speed-Effect Coefficient .....</b>	<b>294</b>
<b>IX.2.7. Car and Locomotive Data .....</b>	<b>295</b>
<b>IX.3. First Design Example.....</b>	<b>296</b>
<b>IX.3.1. Example Statement .....</b>	<b>296</b>
<b>IX.3.2. Preliminary Remarks .....</b>	<b>296</b>
<b>IX.3.3. Determination of Rail Size.....</b>	<b>296</b>
<b>IX.3.4. Determination of Tie-Plate Size .....</b>	<b>299</b>
<b>IX.3.5. Check if the Largest Tie-Ballast Pressure <math>\sigma_{max}^{(4)} &lt; \sigma_{all}^{(4)}</math> .....</b>	<b>305</b>
<b>IX.3.6. Determination of Required Ballast Depth.....</b>	<b>305</b>
<b>IX.4. Second Example .....</b>	<b>308</b>
<b>IX.4.1. Problem Statement .....</b>	<b>308</b>
<b>IX.4.2. Problem Analysis.....</b>	<b>308</b>
<b>IX.4.3. Conclusions for Second Example.....</b>	<b>309</b>
<b>IX.5. Third Example .....</b>	<b>309</b>
<b>IX.5.1. Problem Statement .....</b>	<b>309</b>
<b>IX.5.2. Problem Analysis.....</b>	<b>310</b>
<b>IX.6. Alternate Method for the Determination of <math>w_{max}</math>, <math>p_{max}</math>, and <math>M_{max}</math>.....</b>	<b>312</b>
<b>IX.7. Conclusions and Recommendations .....</b>	<b>317</b>

<b>X. MISCELLANEOUS TRACK PROBLEMS AND ANALYSES.....</b>	<b>318</b>
<b>X.1. A Study of Options for Upgrading a Neglected Lightly Used Track.....</b>	<b>318</b>
<b>X.2. Effect of Using Three-Axle Versus Two-Axle Trucks.....</b>	<b>320</b>
<b>X.3. Effect of Inserting a Stiffer Tie in a CWR Track .....</b>	<b>321</b>
<b>X.4. Effect of a Rail Pull-Apart on the Response of a CWR .....</b>	<b>325</b>
<b>X.5. Effect of Rotational Fastener Stiffness on the Lateral Track Response.....</b>	<b>331</b>
<b>XI. STEEL METALLURGY, RAIL MANUFACTURING, RAIL WELDING, AND THEIR EFFECT ON RAIL PERFORMANCE.....</b>	<b>337</b>
<b>XI.1. Elements of Rail Metallurgy .....</b>	<b>337</b>
<b>XI.2. Rail Hardness Tests .....</b>	<b>345</b>
<b>XI.3. Rail Steel Metallurgy and Its Effect on Rail Performance .....</b>	<b>348</b>
<b>XI.4. Rail Manufacturing .....</b>	<b>354</b>
<b>XI.5. Rail Welding .....</b>	<b>359</b>
<b>XI.5.1. Common Welding Methods .....</b>	<b>359</b>
<b>XI.5.2. Effect of Cooling Rates on the Weld Properties .....</b>	<b>362</b>
<b>XI.6. Rail Problems and Maintenance.....</b>	<b>363</b>
<b>XII. PUBLICATIONS REFERRED TO IN TEXT .....</b>	<b>366</b>
<b>INDEX.....</b>	<b>388</b>
<b>ABOUT THE AUTHOR .....</b>	<b>393</b>
