FREE PUBLICATIONS:

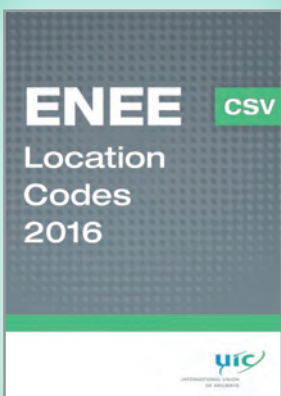

A Global Vision for Railway Development

The UIC Global Vision for Railway Development wants to provide a system-oriented reference to seek appropriate solutions for future challenges, using an approach which has originally been developed for road transport, the "forever open" concept.

ENEE Location Codes 2016 - XML

ENEE is the European Railway Location Database, which includes existing documents (DIUM, LIF stations, etc.). It is the reference for existing or future applications in the passenger, freight and infrastructure sectors at international level.

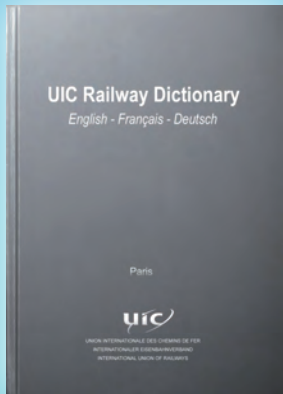

ENEE Location Codes 2016 - CSV

ENEE is the European Railway Location Database, which includes existing documents (DIUM, LIF stations, etc.). It is the reference for existing or future applications in the passenger, freight and infrastructure sectors at international level.

Terminology:

UIC Railway Dictionary English - Français - Deutsch

The "UIC Railway Dictionary" is the print edition of the RailLexic database in the following three languages: English, French and German. It contains some 16,000 terms, with subject fields and grammatical information indicated for each term.

To be kept informed of the latest developments in the field of UIC Leaflets, Reports and Publications, you can subscribe to the ETF Newsletter, on the shop-ETF homepage:

STAY UP TO DATE WITH OUR EXPERTS

We are responsible for the sale of the UIC leaflets listed in the UIC code. We also market technical and research reports (ex ERRI) and standardised drawings.

Our Newsletter will keep you regularly informed of our latest publications (UIC Leaflets, technical reports, conference proceedings, etc.).
